## **BIGGER BEAMS**

We mill our timbers to be bigger & stronger. Woodplay beams measure up to true construction grade dimensions.

# REDWOOD & CEDAR

THE ORIGINAL REDWOOD PLAYSET COMPANY HAS MORE CHOICES.

The lumber used in our playsets offers many great advantages! They are dimensionally stable - which means the boards will remain flat and straight with minimal warping or cupping. Redwood and Cedar playsets are naturally decay and insect resistant without the necessity of using harsh chemical treatments.

Woodplay® playsets are built with durability and longevity in mind. Our Cedar playsets carry a limited 15 year warranty. Our Redwood playsets carry a limited lifetime warranty (The best in the industry!). We apply a transparent stain that enhances the natural beauty of the lumber to compliment your yard. The stain is water-based, kid friendly, low in volatile organic compounds and safe for play.

# EASY AS 1

## 1 CHOOSE A BASE STYLE & ROOF

### PLAYHOUSE SERIES

The Playhouse Series' traditional post-and-beam construction accommodates popular accessories beneath the base, including a built-in sandbox or a full-size convertible picnic table which doubles as a sandbox cover.

### OUTBACK SERIES

The Outback Series' wide-angle ladders create roomier play spaces beneath the playset for more active play - add a tire swing, for instance! Our Outback ladders have four different climbing challenges.

WOODPLAY

# OUTBACK™ SERIES

Outback™ angled ladders are a Woodplay® original - and now an industry standard. The Outback creates the most room “down under” the deck - enough room for a rotational tire swing - and gives wide access to the deck from the rock wall or chain ladder.

Now, we’ve made the Outback even more flexible! Choose from 6 different sizes (3 deck heights and 2 deck sizes). Plus, select the options that make it just right for your family. The Outback Series is available in Redwood or Cedar.
